PEPPER SPRAY

Pepper Spray is a self defense product derived from hot cayenne peppers. Our pepper spray contains 10% & 15% Oleoresin Capsicum, with a 1.5 and 2.0 million Scoville heat unit rating, the strongest pepper spray formula available. When sprayed in the face, OC pepper spray will cause temporary blindness and restricted breathing. The effects of the pepper spray last for 30 to 45 minutes. This pepper spray is non toxic, nonflammable, and will not deteriorate with age. Since OC pepper spray is an inflammatory agent, it is effective against those who feel no pain such as psychotics, drunks, or drug abusers. Our pepper spray also contains ultraviolet dye for police identification. This pepper spray has also proven to be the best deterrent available for attacking animals. Yosemite National Park is now advising all visitors to bring pepper spray to protect themselves from bears.

Pocket Pepper Spray

The Pocket Pepper Sprayers are small enough to carry in your pocket or on your key ring, yet strong enough to stop an attacker up to several feet away. The 3/4oz sprayers have a range up to 10 feet and contain about 6 one second bursts. These units have the safety twist lock actuator to prevent accidental discharge and contain ultraviolet dye for police identification.
